UCSF-Stanford CERSI Summit

Innovations in Regulatory Science

Hosted by UCSF-Stanford CERSI as a pre-conference to the 2019 Annual J.P. Morgan Healthcare Conference

Saturday, January 5, 2019
Mission Bay Conference Center - 1675 Owens St, San Francisco, CA

Engaging stakeholders from academia, government and industry to support regulatory science and translational innovation

Featuring Panel Discussions:

- Artificial Intelligence, Deep Learning and Novel Statistical Approaches: Applications to All Aspects of Regulatory Science
- Accelerating Clinical Trials in the Development and Approval of Innovative Medical Products
- Integrating Digital Health Devices into Clinical Evaluation
- Patient Participation and Real-World Evidence to Guide Regulatory Science
- Expertise vs Perceived Conflict of Interest: Best Practices for Physicians and Scientists to Advise Regulatory Agencies
- The Role of Academia, Government and Industry in Regulatory Science: New Models for Cross-Sector Collaboration
- Advancing Discovery to First-In-Human Clinical Trials for New Medical Products
